CREATING ORGANIC, DECORATIVE TEXTURES

Pebbles have been used in building and landscaping for centuries and our range of presents an extremely versatile material for stone walls, feature walls and other garden ideas. Our extensive range of colours and sizes makes them a great natural stone choice for a wide scope of wall veneer options.

Our natural stone pebbles are low-maintenance and the nature of their sourcing is inherently eco-friendly, with varied sizes available for ease of specification. Clean and washed for decorative topping, both internally and externally, our pebbles present an excellent choice for outdoor water features, retaining walls, pool walls, feature walls, fireplaces and more.

Anvil

Arctic

Bendigo

Bracken

Eden

Eggshell

Himalaya

Sahara

A selection of high resolution 3D textures is available on our website.

Weight (kg/m²) – 20kg per bag (all sizes)

Weight (lbs/sq ft) – 44lbs per bag (all sizes)

Packing Details (bags/crate):

100 bags per crate (Bracken, Eden, Eggshell, Sahara)

120 bags per crate (Anvil, Arctic, Bendigo, Himalaya)

The smaller the size pebble the greater the square metre / feet coverage per 20kg / 44lbs bag (refer to website for further installation tips).

Pebbles can also be used effectively as a walling alternative (refer to walling section to see some examples).

*All manufactured pebbles are made from quarried waste (granite, marble or quartz).
