# Pebbles

---

## CREATING ORGANIC, DECORATIVE TEXTURES

Pebbles have been used in building and landscaping for centuries and our range presents an extremely versatile material for stone walls, feature walls and other garden ideas. Our extensive range of colors and sizes makes them a great natural stone choice for a wide scope of applications.

Our natural stone Pebbles are low-maintenance and the nature of their sourcing is inherently eco-friendly.

Clean and washed for decorative topping, both internally and externally, our Pebbles present an excellent choice for outdoor water features, retaining walls, pool walls, feature walls, fire places and more.
