## STRIKING CONTEMPORARY ARCHITECTURAL LINES

Echoing the style of Peter Zumthor's iconic design of Therme Vals Spa, our Linear Walling range is a Strip walling that reinforces lineal architectural narrative.

Comprising of split stone, limestone, slate travertine and sandstone, this format represents a modern way of integrating natural stone into a unique design project. Its streamlined appearance creates a modern backdrop that is suitable for internal and external applications.

A thin profile makes Linear Walling an ideal option to be used on vertical surfaces. We use sawn and split in combination together to create a distinctive textured façade.

*All metric measurements are accurate.  
All imperial measurements are nominal.*

Typically these products are adhered to a concrete or block wall with a suitable tile adhesive.  
Use of mechanical fixings may also be required. Corner details are slightly different for each stone type.  
When working out quantities required for a wall, you need to know the face in square feet to be covered.  
For further information, installation tips and pricing please call a showroom on (855) 413 1413.
