PROVINCIAL & ROMANTIC APPEAL

Travertine is a natural stone that offers a striking patina like no other. Formed from sedimentary rock, the stone can be used to complete a contemporary aesthetic or add age and texture to finish a traditional, classic look.

Travertine has been used in buildings for millennia, such as the Colosseum, and is still sought after in modern architecture - with the Getty Center in California being one of the most notable contemporary designs to use the material.

From soft cream and beige hues to warm, greys and earthy tones, our Travertine range provides a sense of elegance for natural flooring options for any number of internal builds as well as all landscape and garden design projects.

*All metric measurements are accurate.
All imperial measurements are nominal.*

Modular pattern tiles come in pre mixed crates.

The tiles are ideally best laid on a tile adhesive / thin set bed over a concrete slab. Refer to installation tips for further details.

16" x 24" tiles can be cut on-site for use as vertical risers when installing step treads.

For further information, installation tips and pricing please contact us on (855) 413 1413.
